---

## Career Objective

A passionate Full Stack Developer with over seven years of experience in building innovative web applications. Proficient in Front-End development with React, Angular, and Vue.js, and skilled in Node.js backend development. Committed to creating high-quality, scalable solutions and continuously enhancing my expertise in web technologies.

## Work Experience

<b>Senior Front-End Developer, Perfect Presentation (2P)</b>	2025 – Present
<b>Full Stack Developer, RQM (Software Development Company)</b>	2023 – 2025
<ul style="list-style-type: none"><li>Enhanced and maintained over 10 web applications using Node.js, Angular, and React, supporting seamless user experiences across multiple platforms.</li><li>Collaborated with cross-functional teams to design and implement 15+ new features and APIs, reducing API response time by 30%.</li><li>Utilized Agile and Scrum methodologies, managing Sprints and Scrum Events to deliver projects 20% ahead of schedule.</li><li>Optimized applications for responsiveness, reducing load times by 25% and improving user satisfaction scores by 15%.</li></ul>	
<b>Advanced Course Instructor, Elevate</b>	2023 – Present
<ul style="list-style-type: none"><li>Delivered advanced training on Full Stack development (Node.js, Angular, React, and Web APIs) to over 500 students, achieving a 95% course completion rate.</li><li>Mentored students and provided hands-on guidance, improving their coding skills and enabling 80% of them to secure tech internships within 6 months.</li><li>Reviewed and graded 1,000+ assignments, ensuring consistent quality and actionable feedback for student growth.</li></ul>	
<b>Full Stack Web Instructor &amp; Mentor, Route Academy</b>	2017 – Present
<ul style="list-style-type: none"><li>Taught Front-End and Back-End courses (Node.js, Angular, React, and Web APIs) to over 6,000 students, resulting in a 90% pass rate across all cohorts.</li><li>Supervised 500+ coding projects, resolving 1,200+ technical issues and ensuring 98% project completion within deadlines.</li><li>Demonstrated programming fundamentals to non-CS students, increasing their understanding of core concepts by 40% through tailored support.</li></ul>	
<b>Front-End Developer, Synergic IT Solutions</b>	2020 – 2022
<ul style="list-style-type: none"><li>Built and expanded 20+ features for web applications using Angular, React, SCSS, and Angular Material, boosting user engagement by 25%.</li><li>Incorporated Node.js APIs for 5 major projects, improving application performance by 35% and supporting 10,000+ daily active users.</li></ul>	

## Education

<b>Bachelor's Degree in Computer Science, MTI University</b>	2016 – 2020
<ul style="list-style-type: none"><li><b>Graduation Project:</b> <i>Pink Boat</i> – A medical web/mobile application for cancer detection and treatment.</li></ul>	
<b>React Native Diploma, Route Training Center</b>	January 2019 – April 2019
<ul style="list-style-type: none"><li>Studied JavaScript, React.js, Redux, and React Native for mobile application development.</li></ul>	
<b>Full Stack Web Development Diploma, Route Training Center</b>	April 2017 – August 2017
<ul style="list-style-type: none"><li>Studied Angular, PHP, and other web technologies for building robust web applications.</li></ul>	

## Projects

### E-Commerce Platform

- Improved an e-commerce platform using Angular for the front-end and Node.js with Express.js for the back-end.
- Merged MongoDB for product storage and payment gateways for seamless transactions.
- Established a responsive UI with SCSS, improving user engagement by 20%.

## **Task Management System**

- Built a task management application using Angular and NgRx for state management, with Node.js for the back-end.
- Generated RESTful APIs and incorporated MongoDB for data persistence.
- Added features like task assignment and notifications, enhancing team productivity.

## **Landing Page for Various Companies**

- Planned a modern landing page for various companies using Angular for the front-end and Node.js for the back-end.
- Implemented contact forms and blended email APIs for lead generation.
- Achieved a responsive design with SCSS, increasing conversion rates by 15%.

## **Landing Page for Various Companies**

- Generated a landing page for various companies using Angular and Node.js.
- Added interactive content and merged a Node.js API for dynamic content.
- Improved user experience with a responsive design, boosting user inquiries by 25%.

## **Landing Page for Various Companies**

- Expanded a professional landing page for various companies using Angular for the front-end and Node.js for the back-end.
- Incorporated a booking system using Node.js and MongoDB.
- Enhanced the UI with SCSS, leading to a 30% increase in client engagement.

## **Quiz App**

- Built an interactive quiz application using Angular for the front-end and Node.js for the back-end.
- Blended MongoDB to store questions and user scores, with real-time feedback functionality.
- Planned a user-friendly interface with SCSS, improving user interaction and engagement.

## **Gym App**

- Enhanced a gym management application using Angular for the front-end and Node.js for the back-end.
- Implemented features like workout scheduling, membership tracking, and progress monitoring with MongoDB.
- Initiated a responsive interface with SCSS, enhancing user accessibility and satisfaction.

## **Professional Affiliations**

---

### **Active Contributor, Google Developers Group 6 October**

2018

- Participated in organizing events and workshops to promote developer skills and collaboration.

## **Skills**

---

### **Technical Skills**

- HTML5, CSS3, SCSS
- Responsive Web Design
- JavaScript, TypeScript, ESNext
- Angular (2+), NgRx, Pipes, Interceptors
- React, Redux, Vue.js
- Node.js, Express.js
- MongoDB, GraphQL
- PHP, MySQL, WordPress
- OOP, Git, GitHub

### **Languages**

- Arabic: Native
- English: Very Good
